

Welcome Skullz Gang

This whitepaper will give you a deeper look into the project, the team, and information that has not been published yet.
Sit down and put your seatbelt on, it's going to get exciting.

When you join ADA Skullz, you join a very exclusive project & group of CNFT owner who are passionate about innovation and making a positive difference.

As a member of the Skullz Gang, you will have access to everything that has been & will be released in the roadmap.

Our Vision

We have been following the NFT space for quite a while now and the thought of NFT enthusiasts losing millions of dollars in gas just to mint a project is something that we don't like at all.

So we were standing between Cardano / Solana / Tezos and since we believe in the Cardano blockchain and also want to support the space as well, we have selected Cardano.

Since we are at the beginning of the CNFT space, we want to become an innovative and unique project that will last in the future.

We can only do this with a strong community backing us. Thankfully we've been able to connect a lot of fun, friendly and entertaining community member so far. Skullz Gang is LIT !!!

We are here to stay!

Let's start with the actual roadmap.

20%

Skullz Gang House

This is the first step to bring the community together in an exclusive place, only for holders.

You will be surrounded by very important news regarding NFTs, Crypto and Web3.

Also this will be a place, where ADA Skullz holders can participate in exclusive giveaways. In our first giveaway, holders of the community will have the opportunity to win 3 of the legendary 1/1 ADA Skullz.

Stay curious what the team has prepared for all of you exclusive members.

40%

Detailed Art-Certificate

We are sure you've all wondered what exactly you're getting with this certificate.

The detailed Art-Certificate is a beautiful graphic of your ADA Skullz with an overview of all the important information about your CNFT. So you're able to make a nice poster out of it, or present it in an Web3/ART Gallery in the future.

In addition, we will give away the ART-Certificate as a physical poster to 33 lucky members of you, which will be sent to you free of charge.

60%

Exclusive Companion Airdrop for Skullz Holder

Each of our ADA Skullz has a loyal companion which will be airdropped to you. They will have a special utility in the future, so you don't want to miss these. But more information will be available as time passes!

Example:

For each ADA Skullz you're going to hold, you will get one loyal companion airdropped.

This means 3 ADA Skullz = 3 loyal companions

80%

ADA Skullz Merchandise Shop

All kinds of high-quality merchandise that you could imagine.

Bringing our own merchandise into the real world is not difficult for the team. We are experienced & have the associated partner in this space, so you can get ready for high quality fun things!

The coolest part is that we have plans to develop products with the community! Through the store we are trying to build a brand in the long term.

And of course Skullz Gang, there will be benefits for all of you!

Skullz DAO

Holding an ADA Skullz allows the owner to access our DAO. The DAO will allow you to vote on future decisions such as investments, partnerships etc. Basically anything related to the future of the project.

A DAO is different from a traditional and outdated form of organization which is rather controlled by a central government.

In the DAO everything is done completely democratically and transparent by the community.

100%

If beginners want to find out more about the subject, they can start here:

<https://medium.com/coinmonks/defi-nft-and-dao-49b07e7c7119>

How is this going to be possible?

There will be a community wallet.

We know that big plans can only be realized with a lot of liquidity. The financing of this wallet will be made possible by the mint and the merchandise shop.

Our Story

To get to know us better, we want to give you a little insight into the team.

The Team is part of 4 friends who know each other from university.

We have already run different projects with good success together, so now we are trying to create a unique brand in the Metaverse for the long term. Since we're already NFT & Crypto enthusiasts and have been following the space for many years, we have a lot of fun launching this project and building a community. And look, we are already growing into a really friendly and helpful community that spreads positive vibes.

Anonymity

We know that many of you would like to know our identities and that's why we would like to tell you Skullz our point of view.

Being anonymous is a personal choice.

We think it fits to the hole blockchain/decentralized space. Not everyone agrees with that and that's understandable and ok!

That there have been scams in the past and will be in the future is known to all of us, but we don't think we should curse every project because the team is anonymous.

We don't force anyone to buy our NFT's.

At the end of the day it's just your personal decision what you want to invest & believe in.
